Art Unit: 1614

Claims 1-20 are presented for examination.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-20 are indefinite in failing to set forth an upper limit. Such claims use the phrase "at least", but fail to set forth what the upper limit is.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 7-11, 16-19 are rejected under 35 U.S.C. 102 (b) as being

anticipated by Arch.ophthamol. 117: 1329-1345. The Arch of ophtamol teaches the use of the photodynamic therapy for the treatment of choroidal neovascularization at the claimed intervals.
